

New 5134
Benue

FULL BODY

Spec 126*63" / 138*79" Polished
Crystalline Silica Free Available For Special Order

Like Benue, which is a component of the larger West and Central African Rift System, the veins of the Rift Valley run the full length of the land. In fault zones, tectonic plates are constantly shifting, merging at convergent plate boundaries, tearing apart at divergent plate boundaries, and subducting beneath one another.
