Fairlight Gold

FULL BODY

Spec 126*63" / 138*79" Polished
Crystalline Silica Free Available For Special Order

Fairlight Gold strikes the perfect balance between warmth and purity, with its bright white base resembling delicate white sands, adorned with golden veining that glimmers like the radiant glow of a sunset cascading over the beach. The golden patterns flow gently, reminiscent of waves leaving their marks under the evening sun, exuding a serene and timeless natural beauty. Fairlight Gold blends the splendor of a golden sunset with the tranquility of white sandy shores, infusing spaces with the tranquil essence of Australia's Fairlight Beach, evoking a profound connection to nature's gentle gifts.
