Emerald

FULL BODY

Spec 126*63" / 138*79" Polished

Crystalline Silica Free Available For Special Order

Emerald, exudes an air of elegance and coastal inspiration, capturing the serene beauty of the USA's Emerald Coast. Its crisp white base is adorned with sweeping, dynamic grey veins that flow gracefully like ocean waves, creating a sense of movement and depth. Delicate hints of jade-green threads weave through the surface, evoking the lush coastal foliage that defines its namesake. Together, these elements embody the calming, restorative energy of the coast, bringing sophistication to any space.
